

ASSIGNMENT 2 : USHAHIDI OR SHAREABOUTS WEBMAP CREATION

Given : Feb 24th

Due March 3rd

Each student will create an instance of either a Ushahidi or Shareabouts web mapping site. We had a workshop on each and it is up to you to develop the site.

You may want to add your own look and feel to the site, but I am mostly interested that you are able to successfully create a Ushahidi or Shareabouts instance.

We had a workshop on Ushahidi and Shareabouts, below are links to those tutorials for your reference.

- 1) Ushahidi –
<http://duspviz.mit.edu/ushahidi/>

- 2) Shareabouts workshop performed by Frank Hebbert
<https://github.com/openplans/shareabouts/blob/master/doc/WORKSHOP.md>

Please post a word document with your Ushahisi or Shareabouts web site contained so that I can grade the assignments.
